Subject: RE: AB 547 - DSPS

Hello,

Tanya, thank you for the permission. I am including Michael Gallagher and Mary Gibson-Glass on this email as well, since I know there were multiple drafters involved with AB 547. I am also including DSPS general counsel Mike Berndt in case I am inaccurately conveying any of this information.

We are in need of three technical amendments on AB 547:

1 – The attached LRB 3228/P1 (PDF attached) appears to have been inadvertently left out of the final bill. It is included in the LRB summary, but the actual language is missing from the bill. We need it inserted.

2 – Some language in Section 70 needs to be tuned up to reflect our actual intent. We need to strike from the bill the language that I have highlighted below in red. What we are trying to do is to remove the requirement that a local unit has to send DSPS every sanitary permit they issue.

~~The governmental unit responsible for the regulation of private sewage on-site wastewater treatment systems shall forward a copy of each valid sanitary permit and \$20, or the amount determined under department rule, of the fee to the department within 90 days after the each valid permit is issued a copy of the permit and a portion of the fee, as determined under department rule. The governmental unit shall also compile a periodic summary of the permits that it has issued. The summary shall contain the information required by the department by rule, and shall be submitted by the governmental unit to the department at intervals to be determined by the department by rule.~~

3 – In Section 30 of the bill, I am told the language goes a little farther than we intended and may actually exempt farm buildings from more codes than just the Commercial Building Code, as was our intent. We believe the attached Word document would address the issue.

Thank you all for your help on this.

Subject: AB 547 - DSPS

Hi Robin,

We would like to have staff at DSPS work with you directly (or other LRB drafters if it is not your issue area) on a couple of technical amendments to the bill. If there is a problem with doing that due to confidentiality, please let me and/or the author, Rep. Rivard, know what we need to do so they can work with you. Thank you!
